

DENTON COUNTY RECLAMATION & ROAD DISTRICT

Management Report

October 15, 2010

1. I am recovering slowly and surely and am gradually resuming my responsibilities to the District. I expect to be back to regular duties within another 2-3 weeks assuming I can drive. Thanks to all of you for your patience and accommodations.
2. Janet Brandon got all the Tax Statements in the mail on October 12. She seems to have a good initial grasp of the Tax Collection job. I hope to expand her part as we go along.
3. The Channels Cleanout Contractor has purchased the equipment he wants to use and it is due in momentarily. With the weather forecasts of a dry, warmer winter, it should be a good time for the work.
4. I am reviewing again the lubrication problem with Pump #2. Our advisors are somewhat concerned about any damages which could have occurred due to the Contractor's obvious lack of completing the work properly. It is a very technical and complicated situation that I will go over with you at the Meeting.
5. The Auditor's proposed to do the 2009-2010 Audit will be presented at the Meeting.
6. I have invited Janet and John to attend the Meeting to answer any questions you may have. My chauffer, Ann, will also attend.

As usual, please let me know if anyone cannot attend.
