TO THE RESIDENTS NEAR THE DISTRICT'S LAKE SUMP

As you are undoubtedly aware, the District's Sump Lake suddenly went dry last week. This was caused by a very unusual malfunction of the Stormwater Gates which make it possible to store water in the Lake.

The repair of the Gates and the required Annual Gates Inspection are scheduled to be completed in the next 7-10 days barring an unexpected delay in obtaining any necessary parts. Then, as it rains, the Lake will refill to its prior level.

We regret the unsightly appearance and will expedite the necessary work. Your patience is appreciated. If you have any questions, please feel free to contact the District at 214-522-5096 or, a fellow resident, Director Ray Jones at 214-693-8144.
